

GRITTI

Book for research on glass and light.

GRITTI

# GRITTI

Una materia legata alla storia della nostra laguna, il vetro, è pronta a sfidare la contemporaneità con l'esperienza, l'alta tecnologia, la cultura e la disciplina del design della luce.

Nella fertile tradizione veneziana il nuovo brand Gritti innesta lo spirito dell'impresa dinamica, la ricerca di nuove forme funzionali e espressive, adottando nel comparto del lighting design la tecnologia più avanzata del nostro tempo.

Glass, a material intimately linked to the history of our lagoon, is ready to challenge contemporaneity with the experience, high technology, culture, and discipline of lighting design.

The new brand Gritti grafts the spirit of dynamic business and the search for new functional and expressive forms in the fertile Venetian tradition as it adopts the most advanced technology of our time in lighting design.

Con il retroterra consolidato di una fornace artigiana, Gritti è un marchio che affronta oggi la sfida di ambiti sempre più sofisticati e complessi: il vetro e l'illuminotecnica compiono insieme un viaggio nelle atmosfere del design più avanzato, mettendo a disposizione di un pubblico internazionale la ricerca su moderni standard e l'innovazione delle sorgenti luminose, con i progetti e la poetica dell'art director Marc Sadler.

With the consolidated background of an artisan furnace, Gritti is a brand that is facing the contemporary challenge of increasingly sophisticated and complex fields: glass and lighting technology travel together into the atmospheres of the most cutting-edge design, making research on modern standards and the innovation of light sources available to an international audience by means of the projects and poetics of art director Marc Sadler.
